PRESIDENT’S MESSAGE

One of the Chapter Officer's jobs is to help track our activity at the Society level. That system is PAOE (Presidential Award of Excellence). The most recent status is: SW Florida Chapter is 9th in size; 3rd overall in points; 1st in Research Promotion with no one close; 2nd in Membership; 2nd in Chapter Operations; and 4th in Chapter Technology Transfer, which is Programs, Refrigeration, and TEGA. Congratulations to all for working hard and getting these kinds of results. And we are done yet!

We have had good reports on our new meeting location in the Magnolia Room at Pelican Preserve. The meals were good, and enjoyed by all. Our last meeting was split with an afternoon session with Dr. Khalil from Cairo University. His topic was A/C in Hospitals and Critical Healthcare Systems, and his evening topic was Ventilation of the Pyramids! He was a good speaker and all enjoyed the sessions.

Our Webmaster, Kurt Vega continues to update and hone our site. Please check it regularly for the latest activities. Remember you can use it to make your meeting reservations and pay by credit card if you wish.

CRC 2006 plans are continuing. A significant meeting was held to coordinate the "who does what" stuff and things are on the move. This is a big job and more volunteers are needed. Please contact Don Pine to find out what he needs and where you can participate.

Our Ad hoc committee is working on accumulating information to work with Edison College. We are working toward development of course work to introduce students to the HVAC world. The college is very interested in helping us develop this program. More as it develops.

April is a busy month for our chapter. Our regular meeting is April 12 at the Magnolia Room in Pelican Preserve. We have a Satellite broadcast on April 20 and a pool tournament on April 21. Please make note of these dates and check elsewhere in this paper for more details.

We have been looking at have a seminar type presentation on the latest revisions to Standard 60.2 2004 with a local expert. Please keep an eye out for further information.

See you on the 12th.

John Pennington, President SWFL ASHRAE Chapter

APRIL MEETING NOTICE

Topic:
Properties of Glycol and Glycol Management Systems

Guest Speaker:
Bob Wegman - Calmac

Meeting Location:
Magnolia Room
Town Center at Pelican Preserve
(just off Colonial Blvd.)

Date:
Wednesday April 12, 2006

Time:
5:00 – 6:00 Board of Governors Meeting
5:45 - 6:30 Social
6:30 - 8:30 Dinner, Meeting and Program

Cost:
$30.00 per member.

Reservations are a must!!
email Mary Kay Gonzalez
fastegle@aol.com
www.swflashrae.org
This Month’s Topic: Properties of Glycol and Glycol Management Systems

Presented By: Bob Wegman - Calmac

Topics Covered will Include:
- Pumping Characteristics
- Maintenance long and Short Term
- Propylene vs. Ethylene
- Glycol with inhibitors and without

Bob worked for the School Board of Sarasota County for many years. He currently works for Calmac

Membership News

Announcing Multi-Year Dues Payment Program!

Members can now pay for up to three years of membership or associate membership in one transaction and receive a 10% discount on the second or third year of payment. If you pay for two years of membership, you will get a $15 discount off the total payment! If you pay for three years of membership, you will get a $30 discount off the total payment!

Please note that multiyear payments must be made by phone or mail. Chapter dues payments will be accepted at headquarters with society dues payments only if chapter payments are made in the same multiyear increments. For example, when a member pays two or three years of society dues, he or she will need to pay chapter dues at the same time to headquarters in the same two or three year increments. If the member prefers to pay chapter dues one year at a time when he or she pays multi-year society dues payments, he or she will need to pay the chapter directly.

Sincerely,

Keith Enwright
Membership Promotion Chair

CRC 2006

Plans and preparations are underway for what should prove to be a fantastic CRC this year August 17-19 at the Sanibel Harbour Resort and Spa

ASHRAE Names Three New Distinguished Lecturers

ATLANTA – Three new distinguished lecturers have been named by the American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE).

The Distinguished Lecturers Program provides ASHRAE chapters with noted authorities who provide insight and speak on relevant topics that impact the HVAC&R industry.

The new lecturers and their areas of expertise are:

• Chandra Sekhar, Ph.D., associate professor and director of external relations, Department of Building, National University of Singapore – Ventilation, Indoor Air Quality (IAQ) and Energy Issues in Hot, Humid Climates – Past, Present and Future; Integrated IAQ and Energy Case Studies in the Tropics; and Decoupled Ventilation Strategies for Enhanced IAQ – Demand Cooling and Demand Ventilation.

• TL Chen, CEng, CEO, Primetech Engineers, Malaysia – A Selection of Common HVAC Design Problems for Hot and Humid Climate Application; Tracking the Progress of Designing for Energy Efficient and Sustainable Office Buildings in Hot and Humid Climates; Critical Review of the Objectives of Fire Engineering; and Fire and Life Safety Audit for the Building Industry.

The new lecturers will serve a two-year term.

There are 44 Distinguished Lecturers for 2006-07. ASHRAE has had a total of 72 lecturers since the program started in 1996-97.

ASHRAE Focuses on Future Growth with New Strategic Plan

ATLANTA – A new strategic plan adopted by ASHRAE will help move the Society toward fulfilling its vision of a better future.

“The new plan charts an exciting course for ASHRAE,” Lee Burgett, ASHRAE president, said. “It calls for an ASHRAE that addresses new global initiatives, provides better tools to its members and that is more well-known to the groups and individuals who depend on us for technical guidance.”

Changing technologies, rising energy prices and increased focus on sustainability have challenged ASHRAE to stay at the cutting edge of the field, according to Burgett. At the same time, competition has increased and ASHRAE must focus its efforts to ensure that its products and services are timely, relevant and appropriately positioned to serve the changing marketplace. The strategic plan will help the Society achieve this, he noted.

“The Board of Directors has planned a course for ASHRAE’s future,” Kent Peterson, chair of the Planning Committee, which lead development of the...
process. “Our goal is to make the strategic directions and strategies included in the plan business-as-usual for our volunteers and staff. We are excited about the opportunities to continue to improve ASHRAE’s value to our membership and the HVAC&R industry.”

The plan can be found at www.ashrae.org/strategicplan. It contains four strategic directions where ASHRAE will focus its efforts over the next several years. They are:

• ASHRAE will lead the advancement of sustainable building design and operations.
• ASHRAE will be a world-class provider of education and certification programs.
• ASHRAE will position itself as premier provider of HVAC&R expertise.
• ASHRAE will be a global leader in the HVAC&R community.

To accomplish these strategic directions, several strategies are identified, including:

• Leading the drive toward the design, construction and operation of net-zero-energy buildings through research, publications and education.
• Developing the performance metrics and rating systems to certify operational performance of buildings for energy efficiency and indoor environmental quality.
• Collaborating with other organizations to integrate HVAC&R systems with other building systems to enhance the effectiveness of total building design and integrated practice.
• Providing accessible on-demand education and distance learning to members and other customers.
• Developing and promoting certification programs for the HVAC&R industry.

In addition, the plan contains an updated mission statement and vision for the Society.

“I am particularly pleased with the Society’s mission statement ‘to advance the arts and sciences of HVAC&R to serve humanity and promote a sustainable world,’” Burgett said. “When we get embroiled in details about our technology, this statement is a useful reminder that ASHRAE’s cumulative work product improves the quality of life for people around the world.”

Five BACnet Addenda Open for Public Review

ATLANTA – Five addenda to ASHRAE’s BACnet standard are available for public review until May 1.

ANSI/ASHRAE Standard 135-2004, BACnet® -- A Data Communication Protocol for Building Automation and Control Networks, allows building equipment and systems manufactured by different companies to work together.

To obtain drafts of or comment on proposed addenda c, d, e, f and g, visit www.ashrae.org/standards.

The BACnet Web services proposed in addendum c would provide access to data in BACnet systems using standard PC desktop software vs. specialized drivers. They also are proposed for the communications between energy utilities and BACnet systems for demand limiting and real-time pricing.

Proposed addendum d contains a number of additions to the standard, foremost of which is the structured view object. This would provide a means for devices to present the relationships between objects and groups of objects, facilitating the development of standard profiles for devices such as VFD drives.

The load control object proposed in addendum e would provide a standardized means for external control over load shedding and is the first of several proposals from the utilities integration working group, working to connect the energy utilities with building automation systems.

Proposed addendum f includes the first of a series of new BACnet access control objects in development in the life safety and security working group. The access door object represents the physical characteristics of an access-controlled door and its associated physical hardware and devices, including door contacts, door locks and card readers. The work of this group is being done in conjunction with the Security Industries Association.

A new means for securing network communications would be provided through proposed addendum g. The proposed addendum draws on advances in encryption and authentication technologies, allowing two levels of access, with a general key for reading and writing basis system data, and application-specific keys plus authentication for connecting to critical systems including access control (security) and fire safety.

New Meeting Location!

Our Meeting location has changed, we will now be meeting at the Magnolia Room at Pelican Preserve.

Statements made in this publication are not expression of the Society
Trane will host the ASHRAE Video Conference at their office. Light refreshments provided.

**SUSTAINABILITY AND THE BUILDING ENVIRONMENT**

**SATELLITE BROADCAST/WEBCAST**

Wednesday, April 19, 2006
1:00 p.m. – 4:00 p.m. Eastern Daylight Time

Information regarding building sustainability principles, practices, and emerging concepts will be presented in this free broadcast/webcast sponsored by the ASHRAE Chapter Technology Transfer Committee (CTTC).

How to Participate

- You may host a Satellite Broadcast site for your colleagues
- You may register to view the Broadcast at a site
- Or, you may register to view the Webcast on your PC

About the Presenters

Presenters will explore how we can better maximize the effective use of resources while minimizing the impact on the environment. Learn more about the presenters at [http://www.ashrae.org/greenbuildingsbroadcast](http://www.ashrae.org/greenbuildingsbroadcast)

PDH Credits

Earn two (2) Professional Development Hours (PDHs) or two (2) AIA Learning Units by completing the Participant Reaction Form following the broadcast/webcast.

Join ASHRAE Now and Save $50!

Participants who are not currently ASHRAE members are cordially invited to join ASHRAE at a special introductory rate ($50 discount) for the first year of membership. A special membership application will be available by request at membership@ashrae.org after March 1, 2006. Click here for information about ASHRAE member benefits.

To Register or For More Information

(There is no registration fee)

2006

ANNUAL BACKWATER FISHING TOURNAMENT

Hosted by:

SOUTHWEST FLORIDA CHAPTER OF
A.S.H.R.A.E.

Saturday May 13, 2006

TROPHIES will be awarded for:

BEST TEAM CATCH
(Two heaviest fish of each of the two species)

1st, 2nd & 3rd Place for heaviest Redfish

Entry Fee is $65.00 per person

Paid entry includes: Entry to tournament
Tournament T-shirt
Awards dinner
Door Prize

Families Welcome!
Dinner tickets can be purchased separately for $25.00 each. Children under 12 years of age are $10.00 each. Weigh-in and awards dinner will be held at RUMRUNNERS in Cape Coral.

A Mandatory Captain’s Meeting will be held Thursday May 11, 2006 @ 7:00 PM at RUMRUNNERS in Cape Coral. One representative from each Team is required to attend to pick up rules, Tournament T-shirts and register your vessel!!!!

Please direct all questions to Dean Sanders (239) 936-4739 ext. 25
Thank you for entering the Annual Southwest Florida Backwater Fishing Tournament hosted by the Southwest Florida Chapter of ASHRAE. The festivities will begin this year on Thursday evening May 11, 2006 at RUMRUNNERS in Cape Coral. The Captains meeting begins at 7:00 PM, which will be a cash bar social. Appetizers will be provided. One member from each fishing team is required to attend to register their boat and to pick up the tournament T-shirts and other information. Xerox copies of navigation charts will be made available if needed.

Saturday morning May 13, 2006, you are free to start at anytime and from anywhere you would like. There is no formal check-in.

The weigh-in will be at RUMRUNNERS at 3:30 PM with a Buffet dinner starting at 4:00 PM. The awards, trophies, prizes and fishing gear raffle will be held during dinner. All Anglers must be present to win!!!!!!!

Trophies will be awarded for:

**Best Team Catch (two heaviest fish of each species)**

1st, 2nd & 3rd place for heaviest Redfish

Only two fish apply to the above categories, Redfish and Trout. All other species caught do not qualify for the tournament. All fish caught and kept during this tournament must comply with Florida saltwater fishing regulations. Both artificial and live baits are allowed. All live fish must be produced at weigh-in for judges to certify.

**Florida Saltwater Fishing Licenses are required!!!!**

If you have not paid your entry fees and turned in your registration, please do so promptly.

All questions should be directed to Dean Sanders at (239)936-4739 ext. 25
2006
ANNUAL BACKWATER FISHING TOURNAMENT
Hosted by:

SOUTHWEST FLORIDA CHAPTER OF A.S.H.R.A.E.
Saturday May 13, 2006

This is your opportunity to participate in sponsoring the state’s only A.S.H.R.A.E. Backwater Fishing Tournament! All prior backwater fishing events were a huge success. This year we anticipate an even bigger turnout. Please be of the first to join our team by sponsoring this event.

All Proceeds will be contributed to A.S.H.R.A.E.

Medallion sponsorship is as follows:

<table>
<thead>
<tr>
<th>Medallion</th>
<th>Amount</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bronze</td>
<td>$100.00</td>
<td>Company logo will be printed on T-shirt</td>
